

# YASCHILAL ADANE

Software engineering

## PROFILE

My name is Yaschilal Adane Tiruneh, a highly motivated 3<sup>rd</sup> year Software Engineering student at Injibara University with a passion for web development and artificial intelligence. I grew up in Dega Damot, West Gojjam, where I attended Sekela Primary School (grades 1–8) and Feresbet Preparatory School (grades 9–12), consistently ranking among the top three students in my class. My parents, hardworking farmers, have supported my education despite financial challenges exacerbated by the economic crisis in the Amhara region.
